New Fire & Life Safety Electronic (TIFF) Plan Submittal Requirement

Dear Fire and Life Safety Contractors,

This correspondence shall serve as notice to all fire and life safety contractors (e.g. fire sprinkler, alarm, pump and kitchen hood contractors) submitting plans—both for new construction and tenant improvements—regarding Chula Vista Fire Department's newest requirement. Effective July 01, 2005, contractors shall provide an electronic copy of the approved plans in a **Multipage TIFF G4 format with a 400 dpi resolution**. The stamped (approved) set of fire and life safety plans will not be released until the electronic copy has been submitted. TIFFs shall be saved onto a CD and placed within a protective case or jacket. Please ensure that the system type, "B" number, project/business address, project/business name and submitting contractor is either written on the CD or accompanies the CD as an attachment. Note: regardless of the number of sheets in your plan submittal, the TIFF shall be a single file, which includes all sheets; not one file per sheet.

Thank you for your cooperation in making our community fire safe.
